

4-Amino-3-chlorophenol

Art. ID TRC-A601735-5G
Unit 5 g
Deliverydetails No Dangerous Good /not restricted

Description

Application Notes: 4-Amino-3-Chlorophenol acts as a synthetic reagent for the preparation of Benzothiazole-based ureas as potential ABAD/17beta-HSD10 modulators for Alzheimer's disease treatment. /// References: Hroch, L., et al.: J. Biorg. Med. Chem. Lett., 26, 3675 (2016)
