

erythro-5-Amino-4-chloro-6-(2-hydroxy-3-nonylamino)pyrimidine

Art. ID TRC-A604175-100MG
Unit 100 mg
Deliverydetails No Dangerous Good

Description

Category: Inhibitors, Nucleotides, Bases and Related Reagents /// Appearance: Yellow Oil /// Application Notes: erythro-5-Amino-4-chloro-6-(2-hydroxy-3-nonylamino)pyrimidine is an intermediate in the synthesis of potent inhibitor of phosphodiesterase II. /// References: Woo, P. W. K., et al.: J. Med. Chem., 25, 603 (1982) Pfadenhauer, E. H., et al.: J. Pharma. Sci., 72, 914 (1983)
