

Amino(3-chlorophenyl)acetic Acid

Art. ID	TRC-A604408-10G
Unit	10 g
Deliverydetails	No Dangerous Good

Description

Application Notes: Amino(3-chlorophenyl)acetic Acid functions as intermediate useful in the preparation of synthetic penicillins, also used in the structure-activity relationship examination of several drugs containing the benzyl moiety, their roles in biochemical and pharmacological processes. // References: Hansch, C., et al.: J.
