

2-Amino-3,5-dichlorobenzoic Acid

Art. ID TRC-A604650-50G
Unit 50 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Miscellaneous Reagents /// Application Notes: 2-Amino-3,5-dichlorobenzoic Acid is used in the synthesis of antifungal and antibacterial pyrrolines and triazolines. /// References: Ahmed, E. et al.: Egypt. J. Chem., 52, 37 (2009)|
