

Aminoguanidinium Bicarbonate

Art. ID TRC-A609715-50G
Unit 50 g
Deliverydetails ADR Limited Quantity (LQ) / AIR Dangerous Good (DG) UN3077 III E1

Description

Category: Miscellaneous Reagents /// Appearance: Off-White Solid /// Application Notes: Aminoguanidinium Bicarbonate is used in the synthesis of antitumor agents and antileukemic activity. Also used in the synthesis of neuraminidase inhibitors in the inhibition of influenza. /// References: Wani, M. et al.: J. Med. Chem., 30, 1774 (1987)| Chand, P. et al.: J. Med. Chem., 40, 4030 (1997)|
