

6-Aminohexanoic Acid

Art. ID	TRC-A609985-10G
Unit	10 g
Deliverydetails	No Dangerous Good /not restricted

Description

Category: Amines, Aliphatics, Inhibitors, Intermediates, Miscellaneous Reagents /// Appearance: White to Off-White Solid /// Application Notes: 6-Aminohexanoic Acid is a reagent commonly used for the extraction of aldehydes from reaction mixtures. 6-Aminohexanoic Acid has also been shown to improve solubilization of membrane proteins in electrophoresis. Studies suggest that 6-Aminohexanoic Acid inhibits the activation of the first component of the complement system. /// References: Ohta ,S. et al.: Chem. Pharm.
