

5-Amino-3-methylisoxazole

Art. ID TRC-A616895-10G
Unit 10 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Heterocycles /// Application Notes: 5-Amino-3-methylisoxazole is a widely used reactant. 5-Amino-3-methylisoxazole has been used as a reactant for the preparation of heterocycle fused pyridinecarboxylic acids. /// References: Volochnyuk, D.M., et. al.: J. Comb. Chem., 12, 510 (2010)
