

6-(6-(6-Aminohexanamido)hexanamido)hexanoic Acid

Art. ID TRC-A618823-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Application Notes: 6-(6-(6-Aminohexanamido)hexanamido)hexanoic Acid is used in the making of a preconjugate which serves as immunoreactive conjugate useful as a developer antigen in a competitive inhibition immunoassay for the polymorphic analyte. Also used in the efficient synthesis of a heterobifunctional coupling agent. ///
