

2-Amino-5-phenyl-3-thiophenecarboxamide

Art. ID TRC-A627050-50G
Unit 50 g
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Orange to Dark Orange Solid /// Application Notes: 2-Amino-5-phenyl-3-thiophenecarboxamide is an 2-Aminothiophene-3-carboxamide derivative and a known inhibitor of janus kinases used in the treatment of myeloproliferative disorders and cancers. /// References: Morwick, T., et al.: J. Med. Chem., 49, 2898 (2006)| Witty, D.R.. et al.: Bioorg. Med. Chem. Lett., 16, 4872 (2006)|
