

N-(3-Aminopropyl)-N-methylcarbamic Acid tert-Butyl Ester Hydrochloride

Art. ID	TRC-A628710-5G
Unit	5 g
Deliverydetails	No Dangerous Good

Description

Category: Amines, Miscellaneous Reagents /// Appearance: White to Off-White Solid /// Application Notes: N-(3-Aminopropyl)-N-methylcarbamic Acid tert-Butyl Ester Hydrochloride is used as a reactant in the synthesis of 8-((dimethylamino)methyl)-1-(3-(dimethylamino)propyl)-1,7,8,9-tetrahydrochromeno[5,6-d]imidazol-2-amine, an inhibitor of the hepatitis C virus. /// References: Dirov, S.M., et. al.: J. Chem. Crystallogr., 43, 235 (2013)
