

2-Amino-4-thiazoleacetic Acid

Art. ID TRC-A630485-100G
Unit 100 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Aromatics, Sulfur and Selenium Compounds /// Application Notes: 2-Amino-4-thiazoleacetic Acid is a reagent used in the preparation of thiazole- and imidazole-containing peptidomimetic inhibitors of farnesyltransferase. /// References: Bolchi, C., et al.: Bioorg. Med. Chem. Lett., 21, 5408 (2011)
