

Ammonium-15N Chloride

Art. ID TRC-A633852-10G
Unit 10 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Isotope Labelled Compounds, Miscellaneous Reagents /// Appearance: White to Off-White Solid ///
Application Notes: Isotope labelled analogue of Ammonium Chloride (A633950), an inorganic compound typically used in flavouring agents and nitrogen source in fertilizers. /// References: Piazza, M., et al.: J. Label. Comp. Radiopharma., 54, 657 (2011)| Hofmockel, K.S., et al.: Soil. Biol. Biochem., 43, 1518 (2011)|
