

Ammonium-15N Acetate

Art. ID TRC-A633903-100MG
Unit 100 mg
Deliverydetails No Dangerous Good /not restricted

Description

Application Notes: Ammonium-15N Acetate is 15N isotope labelled Ammonium Acetate (A633900), which is a versatile reagent, often used with acetic acid to create a buffer solution. It acts as a catalyst in the Knoevenagel condensation. Ammonium acetate is also used as a food additive as an acidity regulator. /// References: Ericsson, U., et al.: Anal.
