

(S)-2-Amino-4-methylpentanol

Art. ID TRC-A634360-25G
Unit 25 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Chiral Reagents, Miscellaneous Reagents /// Application Notes: (S)-2-Amino-4-methylpentanol is a starting material for the synthesis of aminopeptidase N and phospholipase A2 inhibitors. /// References: Fournié-Zaluski, M., et al.: J. Med. Chem., 35, 1259 (1992)| Bennion, C., et al.: J. Med. Chem., 35, 2939 (1992)
