

Aquavan

Art. ID TRC-A735445-10MG
Unit 10 mg
Deliverydetails No Dangerous Good

Description

Application Notes: Aquavan, more commonly known as Fospropofol Disodium, is a sedative/ hypnotic drug and a water-soluble prodrug of Propofol (P829750). Studies show that Fospropofol Disodium can have a protective effect on rat liver against ischemia-reperfusion injury. /// References: Campion, M.E., et al.: Drugs Today, 45, 567 (2009)| Liu, Y., et al.: Sichuan Daxue Xuebao, Yixueban, 42, 231 (2011)| Wang, H., et al.: Yiyao Daobao, 29, 1291 (2010)| Xie, L., et al.: Mazui Yu Jianhu Luntan, 17, 348 (2010)
