

Axitinib-N-beta-D-glucuronide

Art. ID TRC-A794880-5MG
Unit 5 mg
Deliverydetails No Dangerous Good

Description

Application Notes: Axitinib-N-beta-D-glucuronide is a possible metabolite of Axitinib (A794650), a tyrosine kinase inhibitor. Axitinib is used in cancer therapy. /// References: Wasser, K., et al.: Eur. Radiol., 13, 80 (2003)| Park, J., et al.: Clin. Cancer Res., 8, 1172 (2002)| Bergers, G., et al.: J. Clin.
