

## **1-(2-Amino-4-chlorophenyl)-2-ethoxy-ethanone**

Art. ID TRC-A604375-1G  
Unit 1 g  
Deliverydetails No Dangerous Good

### Description

Application Notes: 1-(2-Amino-4-chlorophenyl)-2-ethoxy-ethanone is a reagent used as a building block in chemical synthesis.

| Text/Information | Analyte/Parameter                            | CAS number     | Concentration/Value | Unit | Method | Source |
|------------------|----------------------------------------------|----------------|---------------------|------|--------|--------|
|                  | 1-(2-Amino-4-chlorophenyl)-2-ethoxy-ethanone | [1518486-61-7] |                     |      |        |        |
