

3-Amino-4-bromonaphthalene-2-carboxylic Acid

Art. ID TRC-A616730-1G
Unit 1 g
Deliverydetails No Dangerous Good

Description

Application Notes: 3-Amino-4-bromonaphthalene-2-carboxylic Acid is a versatile reactant used in synthetic preparation of new class of selective excitatory amino acid transporter subtype 1 (EAAT1) inhibitors. /// References: Hansen, S., et al.: J. Med. Chem., 59, 8757 (2016)|
