

N-(5-Amino-2-methylphenyl)guanadine Nitrate

Art. ID TRC-A617065-500MG
Unit 500 mg
Deliverydetails No Dangerous Good

Description

Application Notes: N-(5-Amino-2-methylphenyl)guanadine Nitrate is a derivative of 3-Nitro-6-methylphenylguanidine Nitrate (N503755), which is used in the synthesis of protein kinase inhibitors. // References: Fowler, J., et al.: J. Nucl. Med., 40, 1154
