

Aramchol

Art. ID TRC-A765150-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Application Notes: Aramchol is a fatty acid conjugate that exhibits hypocholesterolemic effects. Studies have shown that aramchol suppresses the activity of stearoyl-CoA desaturase (SCD), which leads to reduction of obesity, fatty liver and insulin resistance. /// References: Leikin-Frenkel, A., et al.: Arch Med Res. 41, 397 (2010)| Gonen, A., et al.: Pathobiology 70, 215 (2003)
