

1-Azidohexaethylene Glycol

Art. ID TRC-A850020-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Category: Aliphatics, Amines, Labeling and Diagnostics Reagents, Polyethyleneglycol Derivatives /// Appearance: Clear Colourless Oil /// Application Notes: 1-Azidohexaethylene Glycol is used to prepare heparin-like antithrombotics having perphosphorylated thrombin binding domains. /// References: Buijsman, R., et al.: Bioorg. Med. Chem., 7, 1881 (1999)
