

4,4'-Azobis(4-cyanovaleric Acid)

Art. ID TRC-A932500-50G
Unit 50 g
Deliverydetails ADR Limited Quantity (LQ) / AIR Dangerous Good (DG) UN3226 E0

Description

Category: Catalyst, Miscellaneous Reagents /// Appearance: White Solid /// Application Notes: 4,4'-Azobis(4-cyanovaleric Acid) is a water soluble azo initiator used in radical polymerization process of vinyls, acylamides, styrenes as well as other polymers. /// References: Nita, L. et al.: Rev. Roum. Chim., 56, 537 (2011)| Ray, G. et al.: Ind. J. Chem., 9, 1124 (1971)|
