

4-Amino-2-mercaptopyrimidine

Art. ID TRC-A611930-50G
Unit 50 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Bases and Related Reagents, Inhibitors, Nucleotides, Sulfur and Selenium Compounds /// Appearance: Light Beige to Light Orange Solid /// Application Notes: This compound has been shown to inhibit iodothyronine 5'-deiodinase, the enzyme responsible for the 5'-deiodination of thyroxine in human liver cells. /// References: Harbottle, R., et al.: Biochem. J., 217, 485 (1984)
