

## **Benzoic Acid (18O and 13C) - isotopic reference material**

Art. ID	IAEA-601
Unit	1 g
Deliverydetails	No Dangerous Good /not restricted

### Description

The organic reference material is intended for  $^{18}\text{O}$  oxygen isotopic calibrations by using TCEA technique. It may potentially be used for  $^{13}\text{C}$  carbon isotopic analysis by combustion technique. Values are reported on the VSMOW scale and VPDB scale correspondingly.
