

## **Respirable cristabolite**

Art. ID                      NIST-1879b  
Unit                         5 g  
Deliverydetails            No Dangerous Good /not restricted

### **Description**

This Standard Reference Material (SRM) is intended for use in preparation of calibration standards for quantitative analyses of cristobalite by X-ray powder diffraction in accordance to National Institute for Occupational Safety and Health (NIOSH) Analytical Method 7500 or equivalent. A unit of NIST-1879b consists of approximately 5 g of powder bottled in an argon atmosphere. /// Sample value(s) - please ask for current certificate.
