

10-Allyl-2-(trifluoromethyl)-10H-phenothiazine

Art. ID TRC-A572415-25MG
Unit 25 mg
Deliverydetails De Minimis

Description

Application Note: 10-Allyl-2-(trifluoromethyl)-10H-phenothiazine is a by-product in the synthesis of 10-(3-Chloropropyl)-2-(trifluoromethyl)-10H-phenothiazine (C380310).

10-(3-Chloropropyl)-2-(trifluoromethyl)-10H-phenothiazine is a metabolite of Fluphenazine (F598418), which is a dopamine receptor antagonist.
