

2-Amino-6-bromomethyl-4(1H)-pteridinone Hydrobromide

Art. ID TRC-A601976-100MG
Unit 100 mg
Deliverydetails De Minimis

Description

Application Note: 2-Amino-6-bromomethyl-4(1H)-pteridinone Hydrobromide is a useful intermediate for the synthesis of methotrexate used in the treatment of cancers and other related diseases.
