

L-2-Aminothiazoline-4-carboxylic Acid

Art. ID TRC-A630505-500MG
Unit 500 mg
Deliverydetails De Minimis

Description

Application Note: A thiozole derivative that is converted to L-cysteine by the enzyme 2-amino-2-thiazoline-4-carboxylic acid hydrolase (ATCase) upon induction by S-compounds in certain bacteria.
