

Ammonium-15N hydroxide Solution ~14 N in H₂O, 98 Atom % 15N

Art. ID TRC-A634036-100MG
Unit 100 mg
Deliverydetails De Minimis

Description

Application Note: Ammonium-15N hydroxide Solution is a solution prepared from ammonium-15N sulfate for studying fertilizer use efficiency and is an important fertilizer for soil fertilization of the sugarcane crop in Brazil. Ammonium-15N hydroxide Solution is also used in the preparation of isotope-labeled oligonucleotides for their use in NMR studies of protein-DNA complexes. Ammonium-15N hydroxide Solution is the 15N-labeled compound for A634020, which is used in numerous household cleaning agents.
