

Synthetic refuse-derived fuel - Heat of combustion

Art. ID	NIST-1657
Unit	100 g
Deliverydetails	No Dangerous Good /not restricted

Description

*HHV (Higher heating value) is the synonym for gross calorific value. Certified value /// Sample value(s) - please ask for current certificate.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
	Higher heating value (H HV) (dry)		13,87 ± 0,25	MJ/kg		
	Higher heating value (H HV) (dry, ash free)		17,40 ± 0,30	MJ/kg		
	Dry ash		20,34 ± 0,54	wt%
