

Polystyrene (0.5 wt. % in water) - Particle size

Art. ID NIST-1961
Unit 5 mL
Deliverydetails No Dangerous Good /not restricted

Description

This Standard Reference Material (SRM®) is intended for use as a primary particle size reference standard for the calibration of particle measuring instruments including flow-through counters and optical and electron microscopes. NIST-1961 is a suspension of polystyrene spheres in water at a weight concentration of about 0,5%. /// Sample value(s) - please ask for current certificate.
