

p-Fluorobenzoic acid - Fluorine

Art. ID	NIST-2143
Unit	2 g
Deliverydetails	No Dangerous Good /not restricted

Description

This Standard Reference Material (SRM) is highly purified p-fluorobenzoic acid certified for use in checking microchemical procedures for the determination of fluorine in organic material. Certified value /// Sample value(s) - please ask for current certificate.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
	Fluorine (F)	[7782-41-4]	13,54 ± 0,01	%
